MOLEWOOD ESTATE - PHASE TWO  
A "LEACH" DEVELOPMENT

This is the first major Estate to be developed in Hertford since before the War and will be much sought after now that the railway line to Liverpool Street has been electrified.

The Estate is being most carefully planned by Messrs. H. C. Leach Limited and the houses are all freehold, well and substantially built in their accepted style. Purchasers should have in mind that this is not an Estate of uniform development for in the first Section of 81 houses 15 different types have been built adding great variety and charm to the finished Estate. The present particulars refer to 50 houses in Phase Two which are expected to be completed from about July to December this year and the prices range from £3,585 to £4,080.

POINTS OF INTEREST ABOUT THE SITE

1. SITUATION

The Estate stands 220 feet above sea level on gravel sub-soil and whilst having all facilities for reaching the Town and Shops in a few minutes, verges some of the prettiest rural countryside in Hertfordshire.

2. BUS SERVICE:

Buses run at about 15 minute intervals from Bengeo to the Town each week day and quite frequently on Sundays.

3. TRAIN SERVICES TO LONDON:

A fast service of diesel trains runs on the Northern Line and a full service of electric trains is available on the Eastern Line. The journey to Kings Cross and Liverpool Street at the moment takes about 45/50 minutes and both stations, whilst within walking distance, can be reached from the Estate by using the 'buses in comparatively few minutes.

4. SCHOOLS:

A new Primary School actually adjoins the Estate. There are: Grammar Schools for Boys at Hertford and for Girls at Ware (2 miles Hertford and fully supplied by 'buses.) Excellent Private School at Bengeo. Catholic School at Hertingfordbury.

All Services are installed.

No Road Charges to be paid by Purchasers.

SPECIAL FEATURES ABOUT THE HOUSES

1. NEW SPECIAL FEATURE NO. 1.

All types now have GAS FIRED CENTRAL HEATING with six or seven Radiators according to type. The boilers will be thermostatically

### RUNNING COSTS:

Based on all radiators fully working for 16 hours per day, 30 weeks a year, plus a plentiful supply of really hot domestic water throughout the whole year, the Gas Board estimate the average running cost will vary between 23/2d per week and 30/- per week according to the type of house, with corresponding reductions if some of the radiators are turned off part of the day or if heating is not required for as long as 16 hours a day.

2. 11" Cavity Brickwork to external walls.
3. All flooring is tongued and grooved.
4. Roofs will be covered with concrete tiles laid on felt.
5. All roofs are insulated.
6. Choice of fireplace tiled surrounds will be available to the purchasers.
7. Kitchen, W.C., and Bathroom walls, where not tiled will be emulsion painted. All other walls will be papered with purchasers own selection of wallpapers.
8. Choice of colour to all internal painted woodwork and the front door is available.
9. All internal doors will be of flush type.
10. Ceilings to hall and lounge will have a coved cornice.
11. Rear fencing will generally be 3ft 6in chestnut paling. Screen fences will be provided where necessary. A 3ft 6in close boarded fence with single gate is provided at the side of the house. Front boundary walls will be dwarf walls built in brick, stone or concrete. Fences to divide front gardens will be 18" high trellis.
12. A 2ft 9in wide concrete path from the public footpath to the front and rear doors is provided.
13. A concrete fuel store and a dust-bin will be provided to each house.

### MORTGAGES

Arrangements have been made for two well known Building Societies to advance generous mortgages on a 25 year term at 6% interest. Subject to satisfactory status mortgages of up to 90% of the purchase price will be available.

The Builders will require stage payments as the building proceeds. but in cases where the purchaser requires a mortgage this will not involve him in any additional expenditure such as Interest on Stage Advances or Re-inspection Fees, if the mortgage is arranged through one of the Building Societies nominated by the Builders.

### PLANS

The Plans and Specifications are available for inspection during normal hours at the Offices of the Joint Sole Selling Agents:
